STATISTICAL LANGUAGE MODELS FOR INFORMATION RETRIEVAL

Morgan & Claypool. Paperback. Book Condition: New. Paperback. 142 pages. Dimensions: 9.1in. x 7.5in. x 0.7in. As online information grows dramatically, search engines such as Google are playing a more and more important role in our lives. Critical to all search engines is the problem of designing an effective retrieval model that can rank documents accurately for a given query. This has been a central research problem in information retrieval for several decades. In the past ten years, a new generation...

Reviews

These kinds of pdf is almost everything and got me to hunting forward and much more. It is among the most amazing publication i actually have read through. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Samanta Satterfield**

A top quality pdf and the font utilized was interesting to learn. Of course, it is perform, continue to an amazing and interesting literature. I am happy to explain how this is the best book we have study inside my personal existence and may be he very best pdf for at any time.

-- **Prof. Leone Larson**
