Brand New Book ***** Print on Demand *****.Excerpt from Conference on Educational Measurements, Vol. 5 The Sixth Annual Conference on Educational Measurements was held under the auspices of the School of Education at Indiana University, Friday and Saturday, April 18 and 19, 1919. The attendance of superintendents and teachers was very good, and unusual interest was indicated in all sessions of the Conference. This Conference is held annually by the School of Education as one means for bringing to the attention of superintendents and teachers of the state significant matters relating to educational progress. It is gratifying to the School of Education that it is evident that the school men of the state have come to look upon this Conference as one of the most important educational gatherings of the year. The program of the sessions is given below. This year no stenographic record was obtained of the Conference, and the published proceedings include only the manuscripts submitted by the speakers on the program. In a few cases no manuscript was submitted because conditions unforeseen at the time the program was published made impossible a satisfactory report.
