EXPLORING EVOLUTION

Vivays. 1 Laminated Cover(s), 2012. hard. Book Condition: New. An anthropology professor and lecturer with a specialty in evolutionary theory, Michael Park here discusses how evolution fits into the way we view the world and our fellow creatures. His abundantly illustrated book addresses such questions as "Do all living things continue to evolve?" and "What does it mean that we share 99% of our genes with chimpanzees?" Park seeks to demystify this topic, separate evolutionary theory from the controversies surrounding human evolution, and show how the thinking behind evolutionary theory has also been influential in a broader cultural context. 160.
