Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It has been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.

(Prof. Loyce Runolfsson Jr.)

MULTIMARKET CONTACT AND ORGANIZATIONAL DESIGN

Deutscher Universitätsverlag Okt 2001, 2001. Taschenbuch. Book Condition: Neu. 210x148x11 mm. This item is printed on demand - Print on Demand Neuware - The influence of market structure on competition and firms' behaviour is explored in economic theory since decades. Until recently, the focus was on the structures within one single market, in which decisions of firms were taken by one single decision maker. However, due to the globalization and integration of markets and the diversification of firms a more comprehensive approach is necessary. Silke Neubauer analyses the implications of multimarket contact and organizational devices for market strategies and market results within a game-theoretic framework. The focus is on delegation possibilities, pre-commitment and internal structures in (multi-stage) games without repetition. The impact of (dis-)economies of scope and delegation on the sustainability of multimarket collusion is analysed in the framework of an infinitely repeated game. 200 pp. Deutsch.
