

Storage Optimization For Miniature Database Systems

By Partha Sarathy Banerjee

LAP Lambert Academic Publishing Jan 2012, 2012.

Taschenbuch. Book Condition: Neu. 220x150x5 mm. Neuware -

In this era of pervasive computing, computation platforms have extended to small intelligent devices like cell phones, sensors, smartcards, PDA s (personal digital assistants) etc.

Miniature or small size computing machines have become unavoidable and are being equipped with an increasing amount of storing and computing resources. As better, efficient and advanced functionalities and features are being added to these devices, an increasing number of applications are being added and for this we need a paradigm shift to the newer aspect of databases. 84 pp. Englisch.

Reviews

This book is definitely not simple to begin on studying but quite fun to see. I actually have read and that i am sure that i will gonna read through yet again once again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.
